Introduction: Tiranag Yatra was organized by on the occasion of “AZADI KA AMRUT MAHOTSAV”, celebration of National festival Independence Day and also Tribute to Late Captain Prem Kumar Patel.

About Manovikas Charitable Society : Manovikas Charitable Society is a civil society organisation that's goal is to successfully help those with intellectual and development disabilities. With this background thoughts, a few likeminded people came together to serve the downtrodden, at Vapi, and Manovikas Charitable Trust has been started in the year of 1995.

About Organizations

They have identified the most downtrodden, mentally retarded people as our target and established “a school for mentally retarded” on 20th October, 1996 in the premises of Ramdeo Mandir Chala Vapi with 13 Children and 2 teachers. Within a year, the school was shifted to a bigger and better premise given by the Gayatri Mandir Vapi in October 1997. As of today the School “Manovikas Rotary Vishishta Prashala for Mentally Retarded” has 135 students and “Manovikas Mook Badhir Vidyalaya” has 78 students

Objectives of the Organisation

The overall objective of the Manovikas Charitable Society organisation is, as mentioned above, to help create a bright future for those with an intellectual and development disability and who have very limited resources to help them achieve this.

The three main areas that the organisation focuses on are:

Educational services - Manovikas Charitable Society aims to provide an advanced educational system which will help those who have an intellectual disability. This educational service allows them to learn and work towards being a more independent being and learn to seek employment.

Care and Welfare Services - All of the activity which the organisation undertakes regarding the hostel, focuses around caring and supporting these people who have intellectual disabilities. The hostel was created at the same time as the organisation and is there to provide a home and care so that those with intellectual disabilities are encouraged towards independent living.

Promoting the Rights of Those With Intellectual Disabilities - Manovikas Charitable Society is there to support people with these disabilities within the Indian community and to encourage the Government to promote the rights of those people. The organisation works towards encouraging the public understanding of these rights.

Manovikas Charitable Society and the education programme they provide has reached hundreds of people with disabilities, parents, teachers and a wide variety of other members of the community. It is important for the society to continue to grow so that those who have an intellectual disability get the help they need and to the best possible standard.
