INTRODUCTION:

World Leprosy Day is celebrated on the last Sunday of January. In 2022, World Leprosy Day is 30th January. This international day is an opportunity to celebrate people who have experienced leprosy, raise awareness of the disease, & call for an end to leprosy-related stigma & discrimination.

The “United for Dignity” campaign calls for unity in honouring the dignity of people who have experienced leprosy. The campaign honours the lived experiences of individuals who have experienced leprosy by:

1. Sharing their empowering stories &
2. Advocating for mental well-being & the right to a dignified life free from disease-related stigma.

Martyr’s Day or Shaheed Diwas is celebrated in India to remember freedom fighters who laid down their lives to help make India independent.
